AIR-SAN

Meterd Air Sanitizer

AIR-SAN is an EPA registered metered air sanitizer that reduces airborne bacteria, making the air you breathe healthier and cleaner. It eliminates unwanted odors and airborne bacteria in bathrooms, kitchens, offices, work areas and many other places.

- ✓ Reduces Airborne Bacteria, Making The Air You Breathe Healthier and Cleaner
- ✓ Use Anywhere Airborne Bacteria and Odors Are a Problem
- ✓ 30 Days of Protection - One Can of AIR-SAN Will Cover 6,000 Cubic Feet for 30 Days, 24 Hours a Day When Set at 15 Minute Intervals

APPLICATIONS

AIR-SAN is an EPA registered product used to reduce airborne bacteria which can cause undesirable odors. It is specially designed for use in timed, intermittent aerosol dispensing units. One unit should normally treat 6,000 cubic feet of closed air space. One can, used on a 24 hour basis, will provide adequate air sanitizing. Each can of AIR-SAN lasts for 30 days when used on a 15-minute interval, effectively sanitizing the air and eliminating airborne bacteria and virus particles, as well as smoke, office, restroom, food and garbage odors. Suggested uses for AIR-SAN include medical offices, cafeterias, waiting rooms, break rooms, lobbies & hallways, childcare centers and anywhere else airborne bacteria and odors are a problem.

DIRECTIONS

Mount ATCO's Auto Meter Dispenser at eye level and away from doorways. Hand-spray AIR-SAN several times into the air before mounting into dispenser to prime the local area.
