C-BREEZE

Cherry Fragrance Odor Counteractant

ATCO's C-BREEZE is a ready-to-use, industrial-strength cherry fragrance odor counteractant designed to be used in areas with extreme odors. C-BREEZE neutralizes malodors and replaces them with a pleasant cherry fragrance.

- ✓ Ready-To-Use
- ✓ Pleasant Cherry Fragrance
- ✓ Neutralizes Malodors
- ✓ For Use Almost Anywhere

APPLICATIONS

C-BREEZE cherry fragrance odor counteractant is specifically formulated for deodorizing waste water treatment facilities, dumpster areas, garbage collection areas, industrial plants and anywhere a strong, undesirable odor needs to be eliminated. C-BREEZE can be used in ATCO's DYNA-FOGGER to effectively control extreme malodors, providing areas with a fresh, pleasant cherry fragrance.

Places of Use: Hospitals, Hotels & Motels, Maintenance Departments, Industrial Plants, Apartment Complexes, Correctional Facilities, Municipalities, Waste Water Treatment Facilities, Anywhere Odors Are a Problem.

DIRECTIONS

Space and Surface Spraying: C-BREEZE may be sprayed onto surfaces or into the air to control malodors.

Fogging Application: To control malodors in large areas or outdoors, C-BREEZE may be fogged through a mechanical fogger (such as ATCO's DYNA Fogger).
