- ✓ All Organic Obstructions
- ✓ Grease
- ✓ Hair
- ✓ Coffee Grounds
- ✓ Soap
- ✓ Sludge
- ✓ Rags
- ✓ Paper
- ✓ Food, Etc.

...setting performance
standards worldwide...

APPLICATIONS

DISLODGE removes all organic obstructions, including grease, hair, coffee grounds, soap, sludge, rags, paper, food, etc.

DIRECTIONS

For drains completely clogged: Remove any standing water and slowly pour 16 ounces of DISLODGE into drain. Let stand for 45 minutes. If necessary, repeat treatment and let stand 45 minutes. For large drains, several treatments may be required and the treatment must stand overnight before flushing with water.

For drains semi-clogged: Slowly pour 8 ounces of DISLODGE into drain. Let stand for 30 minutes. If necessary, repeat treatment. After last application, flush thoroughly with water.

Caution: Do not use DISLODGE in a drain where an acidic drain opener has been used recently and may still be in the line. Do not use in aluminum vessels. Do not mix with other chemicals. Causes severe burns. Avoid contact with eyes and skin. This product is a corrosive liquid. Wear proper eye & skin protection when using this product.
