

# GREEN CLEAN

## Oxygenated Cleaner and Degreaser

**GREEN CLEAN Oxygenated Cleaner & Degreaser is a concentrated heavy-duty cleaner, degreaser, deodorizer and stain remover. It contains hydrogen peroxide, biodegradable surfactants and degreasers. GREEN CLEAN can be used on walls, floors, tile, vinyl upholstery, metal, porcelain, concrete and counter tops. It removes grease, oil, grime, soap scum, lipstick, wax, food stains and dirt. GREEN CLEAN is an excellent product for use as a general purpose carpet spotter and extractor. It can also be used as a pre-spotter on soiled clothing prior to laundering. GREEN CLEAN leaves no residue, rinses freely with water and contains no caustic or harmful solvents.**

- ✓ **Recognized by the EPA/DfE as a “Green” Product**
- ✓ **Safe For Use on Most Surfaces**
- ✓ **Cleans and Degreases in One Easy Step**
- ✓ **Ideal Product For Use as a Carpet Spotter and Extractor**
- ✓ **Biodegradable**

## APPLICATIONS

GREEN CLEAN is an oxygenated cleaner and degreaser that is recognized by the EPA/Dfe as a "green" product. It is ideal for use as a heavy-duty cleaner, degreaser, deodorizer and stain remover. GREEN CLEAN contains environmentally preferred ingredients and contains no caustics or harmful solvents. It cleans and degreases in one easy step!

GREEN CLEAN can be used on walls, floors, tile, vinyl upholstery, metal, porcelain, concrete and counter tops to remove grease, oil, grime, soap scum, lipstick, wax, food stains and dirt.

GREEN CLEAN can also be used as an industrial carpet spotter and extractor. It works quickly on a number of stains, including coffee, soft drinks, dirt, juice and blood, among others. It effectively cleans carpets, while at the same time neutralizing odors. GREEN CLEAN is safe to use on most colors and surfaces and is ideal for high-traffic areas, as it leaves no soil-attracting residues behind.

## DIRECTIONS

**General Cleaning and Degreasing - Light Soil:** Dilute 2 to 4 ounces per gallon of cold tap water.

**Medium Soil:** Dilute 6 to 8 ounces per gallon of cold tap water. **Heavy Soil:** Dilute 10 to 12 ounces per gallon of tap water. Apply to surface, let stand for 2 minutes to loosen soil, agitate if necessary with a scrub pad or brush, rinse and let air dry.

**For use as carpet spotter:** Pre-test in an inconspicuous area to test for color fastness. Dilute 4 to 6 ounces per gallon of tap water or 2 ounces per quart of tap water. Spray on soiled area. Let product stand for a minute. Blot with a clean white towel. Do not saturate the spot. Repeat if necessary.

**For carpet extraction cleaning:** GREEN CLEAN may also be used with the traditional method of hot water extraction by diluting 2 ounces per gallon of hot water in the solution tank of the extraction machine. Clean the carpet in the usual way and allow it to dry completely before opening to traffic. If this method of cleaning is used, it may be necessary to pre-spray spots or stains on the carpet with the cleaning solution before cleaning. Pre-test in an inconspicuous area to test for color fastness.

## TECHNICAL DATA

<b>Type:</b>	Oxygenated cleaner, degreaser, deodorizer, carpet spotter and extractor
<b>Appearance:</b>	Clear water white
<b>Odor:</b>	Mild citrus
<b>Flammability:</b>	Non-flammable
<b>pH:</b>	6-7
<b>Biodegradability:</b>	Yes
