

Product Data

Ivy Armor

Pre-Contact Skin Solution (Skin Barrier Spray)

For Use in:

- **Waste Water Treatment Plants**
- **Recreation Departments**
- **Construction Companies**
- **Municipalities**
- **Highway Departments**
- **Golf Courses**
- **Landscaping Companies**

Ivy Armor Pre-Contact Skin Solution acts as an invisible barrier to help protect against outdoor irritants. Ivy Armor's spray dries quickly and is non-greasy, non-sticky or clay-like, which may be found in other products. There is also no wait time with Ivy Armor - simply apply the product to exposed skin and immediately start your outdoor task. Ivy Armor is almost unnoticeable on skin and washes off easily with soap and water.

✓ **Helps to Reduce Loss of Work Due to Rash From Poison Ivy, Poison Oak and/or Poison Sumac**

✓ **Helps to Provide a Barrier Against Environmental Allergens**

✓ **For Use Before Contact With Outdoor Irritants**

APPLICATIONS

IvyArmor is a Pre-Contact Skin Solution designed to be used to provide a barrier against environmental allergens, including Poison Ivy, Posion Oak and/ or Poison Sumac.

Areas of Use: Construction Companies, Road Crews, Utility Companies, Landscaping Crews, City Recreation Departments, Golf Courses, Waste Water Treatment Plants, Municipalities and Any Work or Activity That Requires Outdoor Exposure to Environmental Skin Irritants.

DIRECTIONS

Apply liberally to all exposed skin areas no more than 3 to 4 times daily. Remove with soap and water. Reapply after washing or heavy activity.
