standards worldwide...*

APPLICATIONS

100% active detergent, non-paradichlorobenzene urinal block. Cleans and powerfully deodorizes with bacteria and enzymes. Absorbs and eliminates hydrogen sulfide (rotten eggs, sulfur-gas odor) and ammonia gas resulting from the biological degradation of urine, a major cause of bathroom malodors.

Use in offices, industrial plants, institutions, hospitals, health care facilities, restaurants, hotels & motels and anywhere bathroom odors are a problem.

DIRECTIONS

Urinal Screen: Remove screen from sealed film pouch. Position new screen in urinal drain area for continued cleaning and deodorization.

TECHNICAL DATA

Composition:	Detergent, bacterial-enzyme agents
Type:	Urinal block
Biodegradable:	Yes
Solubility In	
Water:	Soluble
Color:	Pink
Fragrance:	Cherry
