

FOOD-SIL

Silicone Release Agent

FOOD-SIL is a non-toxic, heat resistant silicone spray. It prevents sticking, squeaking and binding. FOOD-SIL makes cleaning fast and easy. It also prevents “poly buildup” on equipment.

...setting performance
standards worldwide...

- ✓ **Heat Resistant**
- ✓ **Non-Toxic**
- ✓ **Keeps Food From Sticking To Surfaces**
- ✓ **Economical**

APPLICATIONS

FOOD-SIL is used on freezing trays, ovens, mixers, conveyors, evaporators, grinders, cutting edges of power tools, press cylinders, rubber and plastic molds and any item which sticking is a problem.

It is safe to use on metal, glass, rubber, plastic and painted surfaces.

DIRECTIONS

Apply a light, thin film on surface. Apply again when necessary.

TECHNICAL DATA

Composition:	Food grade silicone
Type:	Food processing liquid lubricant
Flash Point:	63°F
Toxicity:	Low
Specific Gravity:	1.297
Color:	Clear white liquid
Fragrance:	Mild sweet odor
