GLAMOUR-GLO II

Buffing Cleaner, Polish & Wax

Use on:

- Automobiles
- Taxi Cabs
- Fire Trucks
- Watercraft
- Ambulances
- Municipal Vehicles
- Limousines
- Trailers
- Airplanes
- Buses
- Anywhere You Want a Deep-Gloss Finish!

- ✓ **Shines, Brightens and Protects a Multitude of Surfaces**
- ✓ **High Carnauba Wax Content**
- ✓ **Cleans and Revitalizes Surfaces (Clear-Coat and Gel-Coat Safe)**
- ✓ **Helps Extend Surface Life**
- ✓ **No Hard Rubbing Required**
- ✓ **Removes Oily Film, Prior Wax Build-Up, Soap Haze, Powdery Residue and Microscopic Scratches**

...setting performance
standards worldwide...

APPLICATIONS

As you apply GLAMOUR-GLO II, special solvents clean and revitalize the surface. Released grime and oxidation are lifted free where they are easily wiped away. GLAMOUR-GLO II's polymer additives remove oily film, prior wax build-up, soap haze, powdery residue and microscopic scratches. GLAMOUR-GLO II helps prevent UV damage, extending the surface life of application areas.

GLAMOUR-GLO II safely cleans and polishes painted, lacquered, varnished, urethane, plastic, stainless steel, aluminum, chrome, vinyl, rubber, marble, polished stone, wood, laminants, seamless synthetics, fiberglass and gel coated surfaces. GLAMOUR-GLO II sets the standard in surface enhancement with its high Carnauba Wax content. It imparts a gem-like depth to shiny surfaces and provides a hard wax protective shield.

Cleaning: When used in combination with a dry, lint free, non-abrasive cloth, GLAMOUR-GLO II will remove grease, grime, dirt and surface oxidation.

Protection: The combination of Carnauba Wax, UV blockers and long-lasting polymers provides protection from sun damage, fading, cracking, peeling and chipping.

Prevention: When applied correctly, GLAMOUR-GLO II will form a hard, invisible barrier that actively repels dirt, dust and other surface contaminants.

GLAMOUR-GLO II is easy to apply and can be used on appliances, furniture, decorative metal, counters, autos, trucks, vans, boats, motorcycles, RV's, airplanes and much more!

DIRECTIONS

Just spray on and buff off! Shake well before using. Use only in well ventilated areas. Spray directly onto surface to be cleaned or treated. Using a clean dry cloth, gently rub GLAMOUR-GLO II into area in a circular motion. For stubborn soils, spray liberally directly onto cloth and rub area in a small circular motion. Note: Test on questionable surfaces in an inconspicuous area before using, especially on clear-coat finishes. Not recommended for use with orbital or high-speed buffers.

TECHNICAL DATA

Apperance: Milky white
Odor: Slight ammonia

Flash Point
(Concentrate): None
NFPA Fire Rating: Level 1 aerosol
