DEAD END

Fire Ant and Insect Dehydrator

Kills And Repels:

- Ants
- Bed Bugs
- Cockroaches
- Fire Ants
- Spiders
- Lice
- Silverfish
- Fleas
- Crickets
- Ticks
- Mites
- Beetles
- Weevils
- Scorpions
- Drywood Termites
- Earwigs
- Pillbugs and more!

DEAD END also contains silicon dioxide, which provides long-term control through a desiccating (drying) action. Put DEAD END down and insects walking on it will continue to die for up to 6 months.

- ✓ Kills And Repels Ants, Bed Bugs, Fleas, Cockroaches, Silverfish and Other Listed Insects
- ✓ Provides Quick Control and Keeps on Working For Up to 6 Months When Undisturbed
- ✓ Can Be Used in Homes, Institutions, Food/Feed Plants and Many Other Listed Areas

...setting performance standards worldwide...

APPLICATIONS

DEAD END Fire Ant and Insect Dehydrator contains the quick killing botanical insecticide Pyrethrum, an extract of the Chrysanthemum flower, which provides effective control of insects upon direct contact with an added benefit of flushing these insects to aid in a more complete kill. The silicon dioxide in DEAD END Fire Ant and Insect Dehydrator provides long-term control through a desiccating (drying) action. Put the powder down and insects walking on it will continue to die for up to 6 months.

KILLS INSECTS ON CONTACT: Ants, Carpenter Ants [Eastern (Western)], Fire Ants, Pharaoh Ants, Bedbugs, Confused Flour Beetles, Red Flour Beetles, Booklice, Centipedes, Cockroaches, American Cockroach, Asian Cockroach, Australian Cockroach, Brown-Banded Cockroach, German Cockroach, Oriental Cockroach, Smokey Brown Cockroach, Crickets, Earwigs, Firebrats, Fleas, Lice, Millipedes, Mites, Cheese Mites, Dust Mites, Palmetto Bugs, Pillbugs, Silverfish, Sowbugs, Spiders, Drywood Termites, American Dog Ticks, Brown Dog Ticks, Gulf Coast Ticks, Lone Star Ticks, Waterbugs, Granary Insects, Flat Grain Beetles, Cadelles, Cigarette Beetles, Lesser Grain Borers, Dark Mealworms, Rice Weevils, Drugstore Beetles, Flour Beetles, Merchant Grain Beetles, Saw-toothed Grain Beetles, Warehouse Beetles, Grain Mites, Grain Weevils, Yellow Mealworms, Weevils, Clover Mites.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

USE RESTRICTIONS: Aerial Applications are prohibited. Applications with power duster equipment are prohibited. Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Except when applying to sewers or drains as instructed on this label, do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Follow directions for specific use areas. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not apply this product in hospital patient rooms while occupied or in any rooms while occupied by the elderly or infirm. Do not use in aircraft cabins. When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking. Do not make applications during rain. Do not water the treated area to the point of run-off. Except when applying to pets, do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Do not apply in classrooms when in use. Do not apply to institutions (including libraries, sport facilities, etc.) in the immediate areas when occupants are present.

Entry Restrictions: Do not enter or allow others to enter treated area until dusts have settled.

Application restrictions: Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

APPLICATIONS WITHIN FOOD/FEED AREAS: Food areas include areas for receiving, storage, packaging (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas are places where prepared foods are served, such as dining rooms, but not excluding areas where food may be prepared or held. Do not apply when food/feed processing facility is in operation or foods are exposed. In food/feed processing plants and warehouses, bakeries, beverage and bottling plants, restaurants, schools, kitchens, supermarkets, meat and poultry processing plants, hotels, motels, hospitals, milking areas, meat, poultry and other livestock areas, THIS PRODUCT IS LIMITED TO CRACK AND CREVICE TREATMENT ONLY. Using a bulbous duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where listed insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN FOOD/FEED AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED. NON-FOOD/NON-FEED AREAS: Non-food/feed areas of food/feed areas are areas such as garbage rooms, lavatories, floor drains (to sewers, entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). COCKROACHES [Smoky Brown Cockroach, Brown Banded Cockroach, Asian Cockroach, American

Cockroach, Australian Cockroach, Oriental Cockroach] Waterbugs, Palmetto Bugs, Crickets, Firebrat, Silverfish, Booklice, Spiders, Centipedes, Sowbugs, Pillbugs, Earwigs, Clover Mites, Lice and Millipedes: Distribute DEAD END Fire Ant and Insect Dehydrator at the rate of 1.5 ounces per 100 square feet of surface area. Apply a continuous visible film to hiding places such as cracks and crevices, behind and beneath sinks, stoves, refrigerators, around garbage cans, cabinets, along baseboards, door sills, frames and floors, around drains, pipes, plumbing, behind bookcases, storage and other utility installation. Repeat every 18 weeks or as necessary for control. ANTS, Pharaoh Ants, Carpenter Ants: Treat doors, around window frames, ant trails and hills, cracks and crevices and other areas of entry. FIRE ANTS: Sprinkle 1 to 3 tablespoons over each fire ant mound. One tablespoon should be used on very small mounds (3-5 inches in diameter) and 3 tablespoons on large mounds (14 inches in diameter or greater). For best results, apply when ants are active and avoid treatments in heavy dew or before rainfall. Try not to disturb the ants while applying the material. Do not apply water after application. Repeat the application if the ants reappear. BEDBUGS: Take bed apart. Dust into joints and channels. If hollow, such as square or round tubing, see that the interior of framework is well dusted. Mattresses should be dusted, especially tufts, folds and edges. Picture frame molding and all crack and crevices in the room should be treated. **DRYWOOD TERMITES:** To protect against entrance, using a hand operated rotary duster, distribute DEAD END Fire Ant and Insect Dehydrator through an entry, crawl hole into attic and crawl space of building, at a rate of 12 ounces per 1000 square feet. All vents and blowers on the windward side should be closed. Contact all wood surfaces. In case of localized infestations, probe to locate galleries and drill holes to inject DEAD END Fire Ant and Insect Dehydrator into the galleries. If a reasonable heavy infestation is suspected, professional treatment should be employed. USER SAFETY RECOMMENDATIONS: User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
