

Product Data

EG-90 **Expandable Lithium** **White Grease**

For Use On:

- Auto Doors
- Hoods and Trunk Lids
- Gears
- Chains
- Sprockets
- Linkages
- Slides
- Bearings
- Hinges
- Cranks
- Pistons
- Overhead Door Tracks
- Rollers

EG-90 is an all weather, multi-purpose lubricant. It penetrates like an oil, then cures to a thick, water-resistant grease. EG-90 is heat stable up to 350°F. Its light opaque color helps indicate lubricated areas and reduces staining. EG-90 is used by industrial facilities, marine, aircraft and automotive industries, municipalities, farms, industrial plants and offices. It is ideal for use on auto doors, hoods and trunk lids, gears, chains, sprockets, linkages, slides, bearings, hinges, cranks, pistons, overhead door tracks and rollers.

- ✓ Penetrating - Sprays as a Liquid Then Thickens to a Grease
- ✓ Long Lasting
- ✓ Outstanding Water Resistance
- ✓ Heat Resistance to 350°F
- ✓ Rust Preventing - Does Not Run
- ✓ Contains No 1,1,1, Hexane or CFCs

APPLICATIONS

Hospitals: bed adjusting mechanisms, wheel chairs, carts

Automotive: accelerators, linkages, window operators, ash tray slides, door and trunk hinges, locks and latches

Farm: hinges, slides, cams, bearings, chains

Marine: pulleys, cables, slides, hinges

Industrial: fork lift masts, chains, small gears, couplings, slides, cams, overhead doors, hinges, tools

Office: windows and window operators, door hinges, sliding doors, filing cabinets

TECHNICAL DATA

Appearance: White Spray Grease
Type: Lithium
Water Solubility: Insoluble
Specific Gravity: 0.95
Flammability: Extremely Flammable
