

H.S. BLUE

Porta-Toilet Liquid Bacteria and Deodorizer

H.S. is specifically designed to be used in porta-toilets and recreational vehicle restrooms to reduce suspended solids and eliminate odors with its pleasant cherry fragrance. H.S. BLUE digests and liquefies organic waste, grease and food by-products. This product easily eliminates odors by breaking down the molecular structure of odor sources. Unlike conventional deodorizers, H.S. BLUE is not a perfume mask that covers up odors. It has the unique ability to attack odor molecules and neutralize them.

- ✓ Neutralizes Odor-Causing Molecules with a Pleasant Cherry Fragrance
- ✓ Dual-Action Product Reduces Suspended Solids and Deodorizes Application Areas
- ✓ Non-Toxic

APPLICATIONS

H.S. BLUE is a powerful, dual-action cherry fragrance liquid bacteria and deodorizer. It instantly removes sources of odors while reducing suspended solids in porta-toilets and recreational vehicle restrooms. H.S. BLUE is not a perfume mask that covers up odors. It actually eliminates odors by breaking down the molecular structure of odor sources. At the same time, H.S. BLUE digests and liquefies organic waste, grease and food by-products.

DIRECTIONS

RECREATIONAL VEHICLES and BOATS:

Add 2 ounces per gallon of water in toilet holding tank. Thereafter, use 1 ounce per gallon as needed. For use at dump stations, use 1 gallon per 50 gallons of tank capacity. Then, use 1 pint per week for regular maintenance.

PORTA-TOILETS: Add 1 gallon directly and cover the solids with water to aid digestion. Every time the toilet is pumped, start treatment again with 1 gallon of product.

TECHNICAL DATA

Composition:	Anaerobic and aerobic bacteria
Type:	Bioaugmented pretreatment
pH:	Neutral
Toxicity:	Low
Flammability:	None
Bacterial Count:	255 billion per gallon
Color:	Blue
Fragrance:	Cherry
