PRO-BLAST

Energized Electrical Equipment Cleaner

Areas of Use:

- Utility Companies
- Waste Water Treatment Plants
- Manufacturing Facilities
- City Park and Recreation Departments
- Construction Companies
- Highway Departments
- Repair Shops
- Municipalities

PRO-BLAST is formulated for removing grease, grime and dirt from highly sensitive energized electrical equipment, including electric motors, armatures, instrument controls, relays, gears, electric panels, generators and similar equipment. It also removes heavy grease and soils from transformers, motor or generator housings, power tools, printing presses, etc. Its powerful blasting spray quickly and easily penetrates the toughest grease and grime, and it is non-conductive up to 29,000 volts. PRO-BLAST's formula is non-flammable and fast drying, and it leaves behind no messy residue on equipment. It also can be used on air conditioning, refrigeration and HVAC mechanical equipment. For use on energized equipment only. Not to be used for motorized vehicle maintenance or their parts.

✓ Powerful Blasting Spray Removes Tough Grease, Oil and Grime

✓ Non-Flammable

✓ Dries Residue Free

✓ 32,000 Volts Dielectric Strength

✓ VOC Compliant in All States

APPLICATIONS

PRO-BLAST's powerful blasting spray quickly and easily penetrates the toughest grease and grime from equipment, tools and gears. It is non-flammable, and it has a high dielectric strength, making it non-conductive up to 29,000 volts. PRO-BLAST's formula is fast-drying, and it leaves behind no messy residue on equipment.

Areas of Use For PRO-BLAST: energized electrical equipment such as electric motors, armatures, relays, electric panels, generators instrument controls, gears, electrical contacts and similar equipment. It also removes heavy grease and soils from transformers and motor/generator housings.

DIRECTIONS

Remove cap and spray generously over the surface to be cleaned until completely wet. Allow the solvent to set for a minute, then wipe or rinse off with a second spray. On heavily encrusted areas use a brush. Product is non-flammable and non-conductive so it can be used while motors and equipment are operating. For stubborn soils, repeat application after surface is dry.

IMPORTANT: Energized equipment use only. Not to be used for motorized vehicle maintenance or their parts. Do not use on automatic electronic process control/monitoring systems or computers/data processing equipment. May affect certain plastics. Test before using.

TECHNICAL DATA

Composition:	Energized electrical equipment cleaner
Flammability:	Non-flammable
Dielectric Strength:	29,000 volts
Specific Gravity:	1.52 (H ₂ O=1)
Appearance:	Clear colorless liquid
Franchise:	Chlorinated solvent odor
