APPLICATIONS

SANI-FOAM non-alcoholic foaming instant hand sanitizer is formulated with Aloe, Glycerin and Vitamin E to help moisturize hands, yet it is powerful enough to kill 99.9% of most common germs that cause illness within 15 seconds of application, including MRSA and Clostridium difficile. SANI-FOAM requires no water... simply apply product to hands and rub briskly until dry.

Areas of Use For SANI-FOAM: industrial facilities, food service institutions, municipalities, printing shops, office complexes, restaurants, construction companies, manufacturing facilities, hospitals, hotels and motels, public buildings, schools, correctional facilities, wastewater treatment plants and other places of business where there is a need to reduce the spread of bacteria.

DIRECTIONS

To decrease bacteria on skin, apply a small amount to palm of hand. Briskly rub, covering hands with product until dry. Recommended for repeated use to help reduce bacteria on skin.
