

# **SUKUP's**

## **General Purpose Absorbent Socks**

SUKUP's are the safe and easy way to control messes around the work place caused by machinery leakage or spills. These general purpose absorbent socks soak up oil, solvents, water-based liquids and non-aggressive fluids which can create hazards in and around work areas. There are no messy cleanups like there are when using other absorbents, such as clay granules, rags, cardboard, etc.

- ✓ **100% Poly Blend-Filled Socks Absorb Oils, Coolants, Water and Solvents**
- ✓ **Ideal For Surrounding Spilled Fluids or Wrapping Around Leaky Machines/Equipment**
- ✓ **Easy & Convenient to Put Into Place - Flexible to Conform Around Machine Bases and Offers a Snug Fit With No Seepage**
- ✓ **Contains Spills to Keep Fluids From Spreading Into Larger Areas and Becoming Slippery Hazards**

## APPLICATIONS

SUKUP's General Purpose Absorbent Socks are great for heavy machinery leaks and big spills. Place them around machinery, troubled floor areas and around spills and leaks. These 100% poly-blended absorbent socks flex and bend so unwanted messes never touch the floor. Whenever they become saturated, there's no downtime or cleanup. Just pick up the old one and replace it with a fresh one.

## DIRECTIONS

Place SUKUP's where spills and leaks occur. Once heavily saturated, replace the SUKUP with a fresh one.

## TECHNICAL DATA

<b>Description:</b>	3 Inches Wide By 4 Feet Long 100% Poly-Blended Absorbent Socks (30 Per Case)
<b>Color:</b>	Gray
<b>Absorbency:</b>	Up to 25 gal. per Case
<b>Absorbency Per Sock:</b>	Up to 106.6 oz. per Sock
<b>Incinerable:</b>	Yes
<b>Recycled Content:</b>	100% Post-Industrial Recycled Poly-Blend Filler
