BLAST-OFF II

Energized Electrical Equipment Cleaner

Areas of Use:

- Utility Companies
- Waste Water Treatment Plants
- Manufacturing Facilities
- City Park and Recreation Departments
- Construction Companies
- Highway Departments
- Repair Shops
- Municipalities

BLAST-OFF II is formulated for removing grease, grime and dirt from highly sensitive energized electrical equipment, including electric motors, armatures, instrument controls, relays, gears, electric panels, generators and similar equipment. It also removes heavy grease and soils from transformers, motor or generator housings, power tools, printing presses, etc. Its powerful blasting spray quickly and easily penetrates the toughest grease and grime, and it is non-conductive up to 32,000 volts. BLAST-OFF II's formula is non-flammable and fast drying, and it leaves behind no messy residue on equipment. It also can be used on air conditioning, refrigeration and HVAC mechanical equipment. For use on energized equipment only. Not to be used for motorized vehicle maintenance or their parts.

✓ Powerful Blasting Spray Removes Tough Grease, Oil and Grime

✓ Non-Flammable

✓ Dries Residue Free

✓ 32,000 Volts Dielectric Strength

*...setting performance
standards worldwide...*

APPLICATIONS

BLAST-OFF II's powerful blasting spray quickly and easily penetrates the toughest grease and grime from equipment, tools and gears. It is non-flammable, and it has a high dielectric strength, making it non-conductive up to 32,000 volts. BLAST-OFF II's formula is fast-drying, and it leaves behind no messy residue on equipment.

Areas of Use For BLAST-OFF II: instrument controls, gears and electrical contacts. It also removes heavy grease and soils from transformers and motor/generator housings.

DIRECTIONS

Spray surface to be cleaned thoroughly. Allow product to remain on surface for several minutes. If necessary, remove residue with cloth or wire brush. For stubborn soils, repeat application after surface is dry. **IMPORTANT:** When using on any plastic or rubber surface, please pre-test product in an inconspicuous area. Do not use on automatic electronic process control or monitoring systems, computers or data processing equipment.

TECHNICAL DATA

Composition:	Energized electrical equipment cleaner
Flammability:	Non-flammable
Dielectric Strength:	32,000 volts
Specific Gravity:	1.456
Appearance:	Colorless
Fragrance:	Chlorinated solvent

...setting performance standards worldwide...
