

# CITRA-SOLV

## All-Natural Degreaser

CITRA-SOLV is an all-natural, fast-acting degreaser. The product provides a continuous cleaning program for drain lines, grease traps, lift stations, sewage systems, wet wells and septic tanks. CITRA-SOLV is also ideal for general cleaning and degreasing, as it quickly emulsifies grease and leaves behind a fresh citrus scent.

- ✓ **Heavy-Duty, Bio-Based Formula**
- ✓ **Quickly Emulsifies Grease**
- ✓ **Leaves Fresh Citrus Scent**
- ✓ **Contains No Petroleum Distillates**
- ✓ **Non-Caustic and Non-Corrosive**

## APPLICATIONS

CITRA-SOLV is an all-natural degreaser that is safe to use and does not interfere with bacteria and enzyme systems. It disperses grease into fine particles, aiding the bacterial action of normal biodegradation. This product can also be used to emulsify and remove grease from oven hoods, sink surfaces, grills and some floor surfaces. CITRA-SOLV also leaves behind a fresh citrus scent after application.

**Note:** Because CITRA-SOLV is a powerful organic compound, it may harm some plastic and painted surfaces. Test before applying. Since this product is an excellent grease solvent, it will effectively defat skin. For this reason, rubber gloves are recommended to prevent chapped conditions.

## DIRECTIONS

### PREVENTIVE DRAIN MAINTENANCE:

Prevents grease and slime buildup in your drains. Pour in 8 ounces CITRA-SOLV to one gallon water. Allow to stand for one hour. Flush with hot tap water.

**DRAIN CLEANER:** To open drains stopped up by grease and slime buildup, pour in 8 ounces of CITRA-SOLV. Allow to stand for one hour. Flush with hot tap water. CITRA-SOLV effectively dissolves grease, slime and soap scum deposits in drains, pipes and grease traps. In garbage disposals, allow to stand 5-10 minutes. Flush with hot tap water. NOTE: DO NOT USE IN PLASTIC PIPES.

### GENERAL CLEANING & DEGREASING:

Pour 3 ounces of CITRA-SOLV to one gallon of warm water. For effective results, apply generously to greasy equipment, floors, or walls with a mop, sponge or cloth. Allow to set for approximately 5 minutes. Rinse with warm water. CITRA-SOLV can also be used to clean asphalt equipment and tools.

**LIFT STATIONS:** Determine volume of grease by multiplying length x width x depth of grease (all dimensions should be in feet or decimal feet). Add 1 gal. of CITRA-SOLV for each cubic foot of grease. Let stand for 1/2 hour and agitate with a paddle or water hose.

**SEWAGE PLANTS:** CITRA-SOLV can be dripped into sewage treatment plants. It reduces buildup of grease and slime in sewage treatment equipment without affecting bacterial activity.

## TECHNICAL DATA

<b>Composition:</b>	Solvent Mixture
<b>Type:</b>	All-Natural Degreaser
<b>pH:</b>	N/A
<b>Specific Gravity:</b>	0.89
<b>Flash Point:</b>	155 F
<b>Flammability:</b>	Combustible
<b>Color:</b>	Yellow
<b>Odor:</b>	Citrus
