COOL-AID

Condensate Drain Pan Treatment Tablets

For Use By:

- Schools
- Apartment Complexes
- Beverage Distributors
- Building Maintenance
- Commercial Kitchens
- Hotels & Motels
- Hospitals
- Computer Rooms
- Colleges & Universities
- Nursing Homes
- Municipalities
- Housing Authorities
- Jails & Prisons
- Funeral Homes

ATCO's COOL-AID Condensate Drain Pan Treatment Tablets eliminate most of the extra maintenance problems caused by clogged condensate drain pans and drains such as odors, overflows and water damage. COOL-AID Condensate Drain Pan Treatment Tablets are easy to use, do not form any deposits in the pan or drain and are completely soluble. Each COOL-AID tablet is formulated to clean slime and scum, preventing the odors caused by these accumulations.

- ✓ Keeps Drains Clear - Prevents Costly Condensate Drain Pan Overflow
- ✓ Eliminates Slime & Sludge Buildup
- ✓ Non-Corrosive Treatment
- ✓ One Tablet Treats 5-Ton Units For 3 Months
- ✓ Ideal For Use in A/C Units, Vending Machines, Fan Coils, Refrigeration Systems and Humidifiers

APPLICATIONS

When used as a regular preventative maintenance treatment, ATCO's COOL-AID Condensate Drain Pan Treatment Tablets prevent buildups from sludge and slime which cause clogging of condensate drains, resulting in destructive overflow damage. COOL-AID tablets are used to keep condensate drains free-flowing in refrigeration systems and all A/C units in any commercial, public, institutional or industrial establishment with air conditioning.

DIRECTIONS

Drain blockages caused by slime and sludge can be prevented by placing COOL-AID Condensate Drain Pan Treatment Tablets in the condensate drain pan at a point farthest from the drain, but still in contact with the water flow in the pan. Initially, in order to clean out heavy accumulations, use at least two COOL-AID tablets for each 5 tons. Thereafter, place one tablet for each 5 tons in the pan for every 3 months. Position the COOL-AID tablet so that moisture drips on or runs over the tablet. Good preventative maintenance requires that a COOL-AID tablet be in use at all times.

TECHNICAL DATA

Type:	Condensate Drain Pan Treatment Tablets
Fragrance:	Fresh
Color:	Blue-Green
Size:	1 3/8" wide by 3/8" thick
Weight:	12.5 grams per tablet - 12 tablets per container
