...setting performance standards worldwide...

#### **APPLICATIONS**

GARB SPRAY can be used in industrial and institutional facilities, commercial buildings, warehouses, office buildings, schools, hotels & motels, restaurants, food processing facilities, garbage cans & dumpsters for the control of flying insects such as mosquitoes and flies. It has a 7 week residual control, as well as a pleasant fragrance. GARB SPRAY is also effective against crawling insects such as ants, black widow spiders, carpet beetles, cockroaches, crickets, scorpions, silverfish, sowbugs, spiders, flies and mosquitoes.

#### DIRECTIONS

#### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL: Use the spray as a spot or crack and crevice treatment to control cockroaches, fleas, silverfish, ticks, waterbugs and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Do not use in food/feed areas of food/feed establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils, or wash thoroughly after treatment. Non-food/feed areas of food/feed areas are areas such as garbage rooms, garbage cans and dumpsters, lavatories, floor drains (to sewers, entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning and bottling). Avoid contamination of food and feedstuffs. FOR SPOT TREATMENT: To kill ants, black widow spiders, carpet beetles, cockroaches, crickets, scorpions, silverfish, sowbugs and spiders: Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, spray ant trails and around doors and windows, and wherever else these pests may find entrance. To kill brown dog ticks and fleas: Thoroughly spray as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings where these pests may be present. Pet's old bedding should be removed and replaced with clean, fresh bedding after treatment, DO NOT

SPRAY PETS WITH THIS PRODUCT. Pets should be treated with a registered flea and tick control product prior to reentering treated areas. FOR CRACK AND CREVICE TREATMENT: To kill ants, black widow spiders, brown dog ticks, carpet beetles, cockroaches, crickets, fleas, scorpions, silverfish, sowbugs and spiders: Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollows spaces in the wall, equipment legs and bases where these insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces. Flies and mosquitoes: Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of windows and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed.

#### **TECHNICAL DATA**

#### ACTIVE INGREDIENTS:

(RS)-2-Methyl-4-oxo-3-(2-propyn	yl)
cyclopent-2-enyl (1RS)-cis,	
trans, chrysanthemate	0.03%
Esfenvalerate	0.05%
N-Octyl bicycloheptene	
dicarboximide*	0.25%
OTHER INGREDIENTS**	99.67%
TOTAL	100.00%
*MGK 264, Insecticide Synergist	
**Contains Petroleum Distillate
