QUICK-SAN II Hand Sanitizing Wipes use effective germ killers impregnated into a soft, absorbent fabric to provide effective cleaning, deodorizing and germ killing. QUICK-SAN II kills 99.9% of bacteria, including Escherichia coli, Salmonella enterica and Staphylococcus aureus (MRSA) in 15 seconds, leaving hands clean and feeling fresh.

...setting performance standards worldwide...

- ✓ Kills 99.9% of Bacteria, Including Escherichia coli, Salmonella enterica and Staphylococcus aureus (MRSA), in 15 seconds
- ✓ Each Wipe Cleans, Deodorizes and Conditions
- ✓ Pleasant Mint Fragrance

APPLICATIONS

QUICK-SAN II Hand Sanitizing Wipes combine a gentle and effective anti-bacterial cleaning solution with a non-abrasive fabric that is gentle to hands. The result is a pre-moistened hand sanitizing wipe that kills 99.9% of bacteria, including Escherichia coli, Salmonella enterica and Staphylococcus aureus (MRSA) in 15 seconds, cleans hands and is mild to the skin. QUICK-SAN II's formulation contains a blend of surfactants and antibacterial agents. Each wipe is a fast, effective and convenient method to provide added germ-killing protection, while at the same time removing odor-causing bacteria. QUICK-SAN II quickly cleans and provides an added measure of protection against the spread of colds and the flu, when soap and water are not available.

QUICK-SAN II can be used almost anywhere, including: medical offices, hotels and motels, public buildings, schools, waste water treatment plants, nursing homes, hospitals, dentist offices, day care facilities, restaurants, correctional facilities and health clubs.

DIRECTIONS

1. Remove lid by lifting upward.
2. Pull towel from center of the roll and thread through "X" on the underside of the lid.
3. Close lid. Pull towel at 90° angle.
4. Snap hinged cap back into place to ensure towels stay moist.
