VANGO II

Graffiti & Spray Paint Remover

Works on Hard,
Non-Porous
Surfaces Such as:

- Aluminum Siding
- Glass
- Signage
- Stainless Steel
- Trains
- Phone Booths
- Hallways
- Tabletops
- Elevators
- Buses
- Vinyl-Upholstery
- Subways
- Lockers

VANGO II graffiti & spray paint remover is a unique one-step cleaning system that combines a high-quality graffiti remover formula with an abrasive, non-scratching towel. The formulation will penetrate, loosen, break down and dissolve spray paint and graffiti.

A One-Step Cleaning & Removal System:

- ✓ No Overspray
- ✓ Convenient
- ✓ Economical - 40 Towels per Container

*...setting performance
standards worldwide...*

APPLICATIONS

VANGO II's graffiti & spray paint remover combines a high quality removal system with an absorbent, abrasive, non-scratching towel. This combination allows the towel to absorb and hold the residue without re-depositing the contaminants back onto the area being cleaned. Use VANGO II on any hard, non-porous surface, such as signage, stainless steel, buses, subways and tabletops.

DIRECTIONS

To Dispense:

1. Unscrew cap and pull towel through the "X" located in the center of the lid.
2. Replace lid onto container and close hinged tab to prevent towel from drying out.
3. When removing a towel, pull at a 90° angle until towel tears away at perforation.

Graffiti Cleaning:

1. You may choose to use gloves to protect hands from paint and ink residue.
2. Unfold a towel and lightly scrub in a circular motion to begin dissolving paint and graffiti.
3. Wipe up any remaining residue with a clean cloth.
4. Repeat steps 2 and 3 if necessary.

TECHNICAL DATA

Form: Orange towel/40 towels per container

Formula: Non-Flammable, biodegradable solvent system
